III. Programs and Marketing Director's Report

- A. Programs & Promotions Update
Emily Crawford, Director of Communications presented a summary of recent marketing activities including the current work with the Evening Market, scheduled to open June 1st, 2016. She provided a brief update on the planning for the MarketFront opening noting that we are starting to think about this topic in more detail. She had mentioned that with the MarketFront construction completed, many of the tenant spaces would not yet be completed. She noted the possibility in planning two respective opening celebrations for the MarketFront instead of tackling one event.

Colleen Bowman had asked how closely aligned was the tenant buildout schedule with the construction completion.

It was noted that the tenant buildout completion schedule would be anticipated for June 2017.

There was brief discussion on planning the first celebration of the MarketFront opening as Market-Centric and community focused.

Colleen Bowman said she would imagine that the first walk onto the Desimone Bridge after the completion of the MarketFront would be amazing, especially since the bridge would be connected.

VIII. Public Comment

Joan Paulson commented on two points from the evening's discussions. She noted that local neighborhoods such as West Seattle and Queen Anne generate weekly publications in which we could communicate routinely through those avenues with our promotional efforts. She also noted that what was missing from our strategy was an evaluation from our visitors including asking those questions such as: when was your last visit to the Market, did you enjoy your experience, are you going to return back to the Market. She noted the importance of also asking questions related to transportation and parking.

IX. Adjournment
