

VIADUCT Construction & Demolition Phases (current plans)

SLIDE 1. Duration: Approximately 1 week. South end ramps (A & B) on/off viaduct near stadiums close early.

SLIDE 2. Duration: Approximately 3 weeks (January 11 to early February) Full closure between West Seattle Bridge and Battery Street Tunnel. Single southbound through tunnel must exist at Western

SLIDE 3. Duration: Approximately 1-2 weeks. New SR-99 Tunnel is open, single NB off-ramp near stadiums still closed.

DEMOLITION ZONES

- **Area 1C** will have the greatest impact to the Market and is scheduled to start in February. Demolition will continue near the market up to June.
- Alaskan Way – reduced to one lane each direction
- Work at Western Avenue / Elliott overpasses may restrict access to the Market from February-March
