

What is Luxe?

Luxe is the premier on-demand valet parking service that allows drivers to request a valet using an iPhone or Android app anywhere in Seattle.

How it Works

1. Enter your destination and request your valet in the app before you start your car.
2. Your Luxe valet will be waiting for you when you arrive at your destination to take your car and park it in a nearby secure parking facility.
3. Need a wash or gas fill-up? Simply request a service in the app.
4. Need your car back? You can schedule your return or request your return on-demand, anywhere within our coverage area.
5. All payments and tips happen within the app so you never have to pull out your wallet.

Pricing

Daily Rate:
